

CWB 3.6.2 InvincStable

200Wh Conformal Wearable Battery

POWERING THE MODERN WARFIGHTER

Inventus Power, the inventor & sole producer of the Conformal Wearable Battery (CWB), now offers the innovation of a 200Wh CWB with a 33% increase in energy in the same form factor.

Inventus Power's **CWB 3.6.2 InvincStable** Conformal Wearable Battery provides the modern Warfighter with the safest, most ergonomic, centralized power solution needed to power to all warfighter-worn battery-operated equipment in any environment. InvincStable is the highest energy density CWB in the world.

The CWB 3.6.2 (15.2V; 196Wh) is the highest energy density CWB. It is also the safest and most advanced military-grade battery due to its anti-propagation technology and proprietary safe, **Tranquility** cells.

Its FlexPack design conforms to the Warfighter's body, optimizing ergonomics. This mission-capable battery is ballistic/penetration-safe, water immersible (meets MIL-PRF 32383/4), and ruggedized for wide temperature performance.

Long Battery Life

80% capacity after 500+ cycles

Continuous Power

uninterrupted power for mission duration

Wide Temperature Performance

Operates -30°C to 60°C

Water Safe / Immersible

1 Meter for 2 Hours

Rugged Design

Drop / Vibration / Shock & Crush Proof

Ballistic Safe

protection against effects of bullet penetration
